

Mary Broadcast

Remember the good things!

On 31/3/2017 pop artist Mary Broadcast will release her new single "Memories Of Gold". Mary Broadcast experiments with new sounds, mixes electronics with wild guitars, and sings catchy pop melodies with her distinctive voice. "Memories Of Gold" is wild and intoxicating - and being produced by hit producer Alexander Deutsch and mixed by Markus Kienzl (Sofa

Surfers) - is a very good "pop song".

Two years ago, Mary Broadcast released her last album "Dizzy Venus", which was her first step into the new direction of pop music. She has spent the last few years touring throughout Europe and Africa, collecting a lot of experiences and stories, and putting them into new songs. "Memories of Gold" is one of those songs and there are many more to come.
